Corrigendum

Corrigendum to “Recursive formulation of the matrix Padé approximation in packed storage” [Comput. Math. Appl. 59 (2010) 1532–1540]

M. Kaliyappan^{a,*}, S. Ponnusamy^b, S. Sundar^c

The authors regret that there are a few corrections on pages 1533 and 1535 and apologize for any inconvenience:

On page 1533 Eq. (2) should read: “ $[S(x)] = [P_M(x)]/[Q_N(x)] + O(x^{M+N+1})$ ” instead of “ $[S(x)] = [P_M(x)]/[Q_N(x)] + O(x^M + N + 1)$ ”.

On page 1535, in the algorithm, RP_RITM(A), step 2 should read: “ $A \leftarrow 1/A$ ” instead of “ $A = 1/A$ ” and in the algorithm, RP_TMTMM(A, B), step 2 should read “ $C \leftarrow A \times B$ ” instead of “ $C = A \times B$ ”.
