

Editorial

We are now into the sixth year of publication of the International Journal of Spray and Combustion Dynamics. We are accredited by Web of Science (isiknowledge.com). IJSCD is indexed and abstracted, starting with Volume 1, Issue 1 itself, in

- Science Citation Index Expanded (also known as SciSearch®)
- Journal Citation Reports/Science Edition
- Current Contents®/Engineering Computing and Technology

This accreditation is indeed a testimonial to our efforts to maintain the highest standards for the papers published in IJSCD. Although we are a young journal, our impact factor of 0.636 is comparable to the established journals in the field. Credit for this success belongs to our editorial board, reviewers and most importantly to the authors.

I take this opportunity to thank the editorial board that consists of Drs. John Abraham, Alain Berlemont, Michael Brear, Hua-Shu Dou, Derek Dunn-Rankin, Osamu Fujita, Barry Greenberg, George Gogos, Ashwani Gupta, Yannis Hardalupas, Matthew Juniper, Kailas Kailasanath, Jim Kok, K. N. Lakshmisha, Chris Lawn, Tim Lieuwen, Kun Luo, Franck Nicoud, Mahesh Panchagnula, Jeong Park, Wolfgang Polifke, Bruno Schuermans, Thierry Schuller, Shankar Subramaniam, Chris Willert, Ken Yu and Vladimir Zarko, for all the effort they have put in. I also wish to thank Mr. Paul Bailey and Akram Abdel-Malek for all their hard work to bring out the issues on time.

IJSCD will continue to publish fundamental and applied research in all areas of spray and combustion dynamics. We have started publishing out review articles on topics of current interest written by experts in the subject. Our focus is indeed on speedy publication, maintaining the highest standards for the papers published in IJSCD.
