Received 2017 November 13; published 2017 December 13

There is an error in Equation (4) of the original paper, which should instead be

$$Q_{22} = h_0 \left(\frac{c^4 d}{16\pi^2 G f_{\rm rot}^2} \right) \sqrt{\frac{15}{8\pi}}. \quad (1)$$

This makes it consistent with Equation (3) of Aasi et al. (2014), which was actually used when calculating the value of the Q_{22} upper limits from the h_0 upper limits for the results of this paper.
